CAMPAIGN OVERVIEW

About Be Safe

The Be Safe campaign, developed by the Metropolitan Police Service (MPS), aims to use insight, behavioural change techniques and data analysis to tap into Londoners' concerns, and helps them to overcome behavioural barriers and take control of theirs and their families' security.

We launched in October with a focus on burglary in Barnet, Enfield and Lambeth to correspond with the clocks going back, and will follow with different campaign strands at relevant times of the year to deliver crime prevention advice.

We will link this to operational activity so that Londoners can see that we are taking action and feel that they are operating in partnership with the police.

Crime prevention measures aren't hard, but we know that burglary can be something unpleasant that people are sometimes afraid to face up to. So, whilst we don't want to scare people, we know that the way to get people to confront their fear is to help them understand how to deal with it. And empower them to do so, showing them the simple actions they can adopt.

About Be a Hero

Our campaign objectives are to:

- Motivate and mobilise Londoners to take steps to protect themselves and their property from crime.
- Create a collaborative environment wherein Londoners see it as their job to protect themselves and work together.

Be a Hero is a deliberately ironic take on what it means to be heroic, which is meant to make people smile to themselves, re-frame how they look at crime prevention and get them thinking, talking and taking action. Because the reality is that when we perform simple precautionary measures, we are fighting crime in our own way.

There are a range of assets, from humour-led social posts to a mock hero story in a short film that you can share in your digital and social channels that will help bring 'Be a Hero' to life.

Campaign support

We hope you are able to support the campaign. Partners are crucial in helping to deliver the message in the right way and we want to ensure Be Safe supports the great work already happening in these boroughs.
