

Barnet Multi Faith Forum Environmental Sub-Group Presents
HEAL THE WORLD
14th June at 5:30 to 7pm

Explore the relationship between Faith and Environment

How does your faith call you to heal the world? How does your place of worship take actions towards that? Join members of different faiths in Barnet to talk about their shared love of the environment and their commitment to finding practical solutions to stop climate change. Join us to learn about what local environmental groups and faith groups are doing in their local communities. Suggest ways to take our work forward. Join us, be inspired and be part of the change!

Heal the World

Heal the World

Online Event. To participate register here:
